+50 years
giving
100%

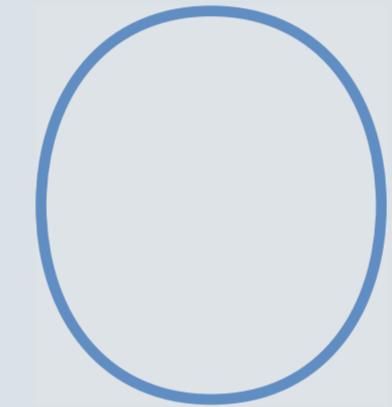

More than 50 years' experience in the construction industry confirms the status of Romero Alarcón (ICRA) as a reference in the sector. Today, while the industry is undergoing transformation by new technologies, construction methods, project types and safety practises, Romero Alarcón maintains the values that have made the company what it is, namely, innovation, experience and a commitment to quality.

Innovation Quality Experience

In-House Resources=Quality and Service

Our facilities are segmented by department in accordance with the changing requirement of every moment.

This allows us to optimise our processes from both a financial and human resources perspective. Our facilities cover a total of 5000 m².

02
Facilities

W

e offer a comprehensive, disciplined and systematic construction service, optimising all aspects of all projects: cost, design, scheduling, methodology, quality control, project monitoring, guarantees and post-sales service.
